Shenzhen Xinyuehong Information Technology Co., Ltd. · No. 38 Tian'an Road, Bantian, Longgang, Shenzhen, China

CONFIGURATION OPTIONS

- Tile layout adapted to your three main flows
- PIN pad, card swipe and QR scanner arrangement
- Receipt printer paper width and cutter
- Cabinet height and accessibility clearances
- Windows, Android or Linux with your service client installed

MODULE OPTIONS

Fingerprint terminal

A fingerprint capture module for identity verification at registration, access control or payment steps. Sensor type, capture window position and SDK support are agreed during specification.

Passport reader

A passport and travel-document reader for identity checks at hotel, transport and public-service counters. MRZ reading is standard; chip reading depends on the reader module selected.

Face recognition camera

A camera module for face-based check-in, liveness checks or queue pre-registration, subject to local privacy rules and the identity platform you already run.

TYPICAL APPLICATIONS

- Bank branch self-service areas
- Account opening and card issuance desks
- Statement printing and queue enquiry in branches

Request a quotation

Send the application, peripheral list, operating system choice and estimated quantity. We reply with the closest build, the open questions and the next step.

Reference build. Screen size, module mix, electrical ratings and certification scope are confirmed in writing for each project. Values describe the standard configuration and may change with selected options. © 2026 Shenzhen Xinyuehong Information Technology Co., Ltd.
