EMBEDDED MODULES

- Angled touchscreen
- Compact base

CONFIGURATION OPTIONS

- Screen size for tabletop viewing distance
- Tilt angle and cable exit location
- Optional camera, NFC reader or QR scanner module
- Light or dark enclosure finish
- Windows, Android or Linux with your application installed

MODULE OPTIONS

Fingerprint terminal

A fingerprint capture module for identity verification at registration, access control or payment steps. Sensor type, capture window position and SDK support are agreed during specification.

Passport reader

A passport and travel-document reader for identity checks at hotel, transport and public-service counters. MRZ reading is standard; chip reading depends on the reader module selected.

Face recognition camera

A camera module for face-based check-in, liveness checks or queue pre-registration, subject to local privacy rules and the identity platform you already run.

TYPICAL APPLICATIONS

- Reception and concierge desk check-in
- Retail product lookup and self-check-in
- Survey, feedback and attendance stations
