Exit-Entry & Immigration Self-Service Kiosk

A two-screen configuration for exit-entry and immigration halls: announcements and queue status above, permit application, payment and document collection below, over a high-capacity service cabinet.

TECHNICAL SPECIFICATIONS

Main display	32 inch touchscreen, 1920 × 1080
Second display	21.5 inch upper guidance display, 1920 × 1080
Touch	10-point projected capacitive (PCAP), tempered glass
Card reading	IC card, ID card and bank card reader; document reader added per project
Receipt printer	80 mm thermal printer with auto-cutter
Cabinet	Large-capacity steel cabinet, lockable service door, A4 printing option
Mounting	Floor-standing base with lockable castors
Operating system	Windows / Android / Linux
Computing platform	Android: Rockchip RK3568 or RK3399 · Windows and Linux: Intel Celeron J6412, Core i3 / i5 optional · 4–16 GB RAM, 64–512 GB SSD

EMBEDDED MODULES

- Upper guidance display
- Lower touchscreen
- Card reader
- Receipt printer
- Large capacity cabinet

CONFIGURATION OPTIONS

- Upper display size, brightness and media format
- Card reader, code scanner and thermal printer positions
- Large lockable cabinet for consumables and access panel
- Cabinet finish matched to the hall signage
- Windows, Android or Linux choice with the chosen exit-entry client

MODULE OPTIONS

Fingerprint terminal

A fingerprint capture module for identity verification at permit application, access control or payment steps. Sensor type, capture window position and SDK support are agreed during specification.

Passport reader

A passport and travel-document reader for identity checks at border-control, immigration and travel counters. MRZ reading is standard; chip reading depends on the reader module selected.

Face recognition camera

A camera module for face-based verification in the service hall or queue pre-registration, subject to local privacy rules and the identity platform you already run.

TYPICAL APPLICATIONS

- Permit application and fee payment in exit-entry halls
- Collection of permits, endorsements and receipts
- Queue status and public-notice playback

Request a quotation

Send the application, peripheral list, operating system choice and estimated quantity. We reply with the closest build, the open questions and the next step.

Reference build. Screen size, module mix, electrical ratings and certification scope are confirmed in writing for each project. Values describe the standard configuration and may change with selected options. © 2026 Shenzhen Xinyuehong Information Technology Co., Ltd.
