EMBEDDED MODULES

- Curved vertical display
- Card readers
- Receipt printer
- Scanning module

CONFIGURATION OPTIONS

- Curved display size and tile layout
- Insurance card reader, social card and bank card slots
- Receipt printer and document scanning module
- Counter height deck or full floor cabinet
- Windows, Android or Linux depending on the local client

MODULE OPTIONS

Fingerprint terminal

A fingerprint capture module for identity verification at registration, access control or payment steps. Sensor type, capture window position and SDK support are agreed during specification.

Passport reader

A passport and travel-document reader for identity checks at hotel, transport and public-service counters. MRZ reading is standard; chip reading depends on the reader module selected.

Face recognition camera

A camera module for face-based check-in, liveness checks or queue pre-registration, subject to local privacy rules and the identity platform you already run.

TYPICAL APPLICATIONS

- Medical insurance enrolment and enquiry
- Claim status lookup and printout
- Insurance card reading and validation
