32-Inch Multi-Industry Self-Service Terminal

A 32-inch 2560 × 1440 portrait display above a glass deck, with 1D/2D scanning, IC/ID and bank card reading and a receipt printer in the side column. One cabinet for five counter types.

TECHNICAL SPECIFICATIONS

Display	32 inch portrait touchscreen, 2560 × 1440 (QHD)
Operating system	Windows / Android / Linux — one cabinet, three platform routes
Barcode scanner	1D barcode and 2D QR code reading, set into the illuminated window below the screen
Card readers	IC card, ID card and bank card reading — contact and contactless handled by the reader modules selected
Identity documents	National ID card reader, including second-generation Chinese ID where the reader module supports it
Receipt printer	80 mm thermal printer in the side column; A4 document printing available as an option
Camera	Front camera and sensor bar above the display, ready for face capture and liveness checks
Cabinet	Brushed stainless steel body, tempered glass counter deck, separate lockable service door
Mounting	Floor-standing curved base with lockable castors, or a fixed plinth for permanent sites
Options	Passport MRZ reader, fingerprint sensor, cash acceptor and recycler, NFC, second display

EMBEDDED MODULES

- 32-inch 2560 × 1440 portrait touchscreen
- 1D barcode and 2D QR scanner
- IC card reader
- ID card and national ID card reader
- Bank card reader
- 80 mm receipt printer
- Front camera and sensor bar
- Tempered glass scan deck
- LED base lighting
- Lockable service cabinet

CONFIGURATION OPTIONS

- Screen brightness and touch technology for the 32-inch panel
- Camera bar: face capture, liveness or document scanning
- Card reader set — IC, ID, bank card, contact, contactless or hybrid — and EMV level
- Scanner set: 1D barcode, 2D QR, MRZ or document camera
- Printer: 80 mm receipt, A4 document or none
- Cabinet finish, LED lighting and branding panel
- Windows, Android or Linux with your application stack
- Floor-standing base with lockable castors or a fixed plinth

MODULE OPTIONS

Passport & MRZ reader

Adds travel-document reading for border, hotel and car-rental check-in. MRZ is standard; chip reading depends on the reader module chosen.

Fingerprint sensor

Captures a fingerprint at enrolment, access or payment steps. Sensor type, window position and SDK support are agreed during specification.

Cash acceptor & recycler

For bank and retail counters that still take notes. Capacity, cassette layout and recycling logic follow the acquirer or vendor stack.

TYPICAL APPLICATIONS

- Immigration and border control counters
- Bank branch card and account services
- Hotel self check-in and key issuing
- Cinema ticket collection and membership
- Supermarket self-service and loyalty desks
