Slim Social Security Services Kiosk

An ultra-slim body that still carries the full social-security module set: card slot, ID scanner, keyboard, QR reader and receipt printer.

TECHNICAL SPECIFICATIONS

Display	21.5 inch slim portrait touchscreen, 1920 × 1080
Touch	10-point projected capacitive (PCAP), tempered glass
Card reading	Social-security card slot, ID scanner and bank card reader
Scanner	QR code scanner at the deck
Input	Compact stainless keyboard
Receipt printer	80 mm thermal printer with auto-cutter
Cabinet	Slim steel body, depth reduced for corridor placement
Operating system	Windows / Android / Linux
Computing platform	Android: Rockchip RK3568 or RK3399 · Windows and Linux: Intel Celeron J6412, Core i3 / i5 optional · 4–16 GB RAM, 64–512 GB SSD

EMBEDDED MODULES

- Slim vertical touchscreen
- Receipt printer
- QR scanner
- Social-security card slot
- ID scanner
- Compact keyboard

CONFIGURATION OPTIONS

- Slim cabinet depth for narrow service corridors
- Social-security card slot and ID scanner placement
- Compact keyboard vs touch-only on-screen entry
- QR reader and receipt printer layout
- Windows, Android or Linux with the required client

MODULE OPTIONS

Fingerprint terminal

A fingerprint capture module for identity verification at registration, access control or payment steps. Sensor type, capture window position and SDK support are agreed during specification.

Passport reader

A passport and travel-document reader for identity checks at hotel, transport and public-service counters. MRZ reading is standard; chip reading depends on the reader module selected.

Face recognition camera

A camera module for face-based check-in, liveness checks or queue pre-registration, subject to local privacy rules and the identity platform you already run.

TYPICAL APPLICATIONS

- Social-security balance and contribution enquiry
- Certificate printing in community service centres
- Benefit application status lookup

Request a quotation

Send the application, peripheral list, operating system choice and estimated quantity. We reply with the closest build, the open questions and the next step.

Reference build. Screen size, module mix, electrical ratings and certification scope are confirmed in writing for each project. Values describe the standard configuration and may change with selected options. © 2026 Shenzhen Xinyuehong Information Technology Co., Ltd.
