EMBEDDED MODULES

- Vertical touchscreen
- Ticket printer outlet
- QR scanner
- Contactless reader

CONFIGURATION OPTIONS

- Ticket outlet position and collection height
- QR scanner and contactless reader combination
- Purchase payment device or external terminal mounting
- Cabinet depth for narrowed corridors
- Windows, Android or Linux with the ticketing stack

MODULE OPTIONS

Fingerprint terminal

A fingerprint capture module for identity verification at registration, access control or payment steps. Sensor type, capture window position and SDK support are agreed during specification.

Passport reader

A passport and travel-document reader for identity checks at hotel, transport and public-service counters. MRZ reading is standard; chip reading depends on the reader module selected.

Face recognition camera

A camera module for face-based check-in, liveness checks or queue pre-registration, subject to local privacy rules and the identity platform you already run.

TYPICAL APPLICATIONS

- Railway and coach station halls
- Cinema and event venue ticket collection
- Attraction pre-paid ticket pick-up
